Directions for Pairing Smart Slate with your PC (Windows 7)

Right Click the Bluetooth Icon

Click Add New Connection

Click New Connection

(Highlight and delete any existing connection)

Click Ok

Make sure your slate is switched on

Then press and hold the Connect button on the back of the slate for 7 seconds

This wizard will cre	eate the settings for Bluetooth device connection.
	Please ensure your Bluetooth devices are on and set to discoverable. In order to certify Bluetooth, there are times when the security setting is modified temporarily. When setup ends, it returns to the original setting automatically.
	 Express Mode (Recommended) Custom Mode This allows you to set the details for the connection.
	< Back Next > Cancel Help

Click next leaving Express Mode selected

(Wait for a min or two as your slate is detected)

Select a device	Izara
	Please choose the Bluetooth device you wish to use. Bluetooth device Device Name Image: Smart State WS200 Image: Bluetooth device Image: Bl
	< Back Next > Cancel Help

Click next and your slate should be synced to your machine now
